

Mandated Projects

Motion 4, 2008

We request that the membership at this AGM mandate the Executive Committee to review IACP membership categories, make changes to the categories of membership and create different categories of membership where appropriate. (This is to reflect practicing Members upholding the Code of Ethics and Practice, and precluding Associate Members from practicing as accredited IACP Counsellors / Psychotherapists if they are not working towards accreditation).

Proposed by Claire Counihan
Motion Carried

Seconded by Margaret Cox

Motion 12, 2008

IACP has a body of knowledge of the extent of the damage of sexual abuse on their clients. We propose that the Executive Committee and the Professional Services Manager would consider ways to educate the public and the legal system on this. The aim of this education would be to enhance the healing environment of our clients.

Proposed by Maria Neville
Motion Carried

Seconded by Elinor Mountain

Motion 1, 2010

The IACP Executive Committee request the membership to mandate the Executive Committee to commission a suitable person to record the history and development of the IACP from its beginnings in 1981 up to the present day.

Rationale for the Motion:

IACP will be celebrating its 30 year anniversary next year. There is no formal record of how it came into existence and how it developed into the largest Professional Body for Counsellors and Psychotherapists in Ireland. It seems timely now to record that history.

Proposed by Margaret Chambers
Motion Carried

Seconded by Toni Doherty

Motion 2, 2010

The IACP Executive Committee propose an amendment to the Regulations of the Irish Association for Counselling and Psychotherapy Limited, to have included in the Regulations all those Sub-Committees not currently included in the Terms of References for Sub-Committees.

Rationale for the Motion:

Additional Sub-Committees have been established since the original Regulations outlined the Terms of Reference for named IACP Sub-Committees. These additional Sub-Committees Terms of Reference need to be formalised in the Regulations.
